Azure AI · AI Workflow Deployment · Python · SQL

LEADERSHIP & COMMUNITY

MS Learn Student Ambassador, Gold 2022 – 2025

Led 20+ ambassadors · organized 68+ events · impacted 8,000+ students · achieved Gold in under a year · partnered with DataCamp.

CERTIFICATIONS

Google Project Management Professional

Microsoft Certified: Azure AI Fundamentals

GitHub Foundations

Salesforce AI Associate

Google AI Essentials

DataCamp AI Fundamentals

EDUCATION

BSc in Computer Science

2021 – 2025

KEY PROJECTS & RESEARCH

AI-Driven Sindhi Recognition System

Published in IJIST · 8,000+ image dataset · 93% accuracy · Python, TensorFlow, OpenCV

AI-Powered PDF Summarizer

NLP tool cutting study time ~70% · Azure, HuggingFace, React

PROFILE

CS graduate and Microsoft Learn Student Ambassador (Gold) with hands-on experience in AI product operations, technical project coordination, and cross-functional team management. Proven record managing 35+ engineers, 7+ global clients, and 50+ technical interviews, driving delivery velocity, SOC 2 readiness, and operational workflows.

PROFESSIONAL EXPERIENCE

Operations Specialist, Engineering & Business Operations

Apr 2026 – Present

Remotebase · Full-time · Remote

- Lead SOC 2 compliance across engineering, technical, business ops & HR, partnering with the CEO, leadership and legal on security and compliance readiness
- Manage 35+ freelance Software Engineers & QA (client matching, payments, performance, training); acting Project Manager for the internal portal: requirements, standups, UAT, demos
- Own the technical operations stack (Google Workspace, Fathom, Fireflies, Intercom, Claude Team) and run logistics for 4-week GTM & partnership bootcamps

Operations Associate, Engineering & Business Operations

Nov 2025 – Mar 2026

Remotebase · Full-time · Remote

- Orchestrated end-to-end logistics for 3-week GTM bootcamps, with 84% and 90% conversion across two cohorts
- Matched Software Engineers & QA to global clients by aligning technical stacks; led technical shortlisting, hiring and performance-based placement
- Drove operational workflows for Ember AI; researched and negotiated AI productivity tools to optimize tech-stack ROI

Management Trainee, Technical Operations RepStack

Sep 2025 – Nov 2025

- Built workflow automations (Zapier, Make, GoHighLevel); produced SOPs and process maps for operational scaling

Junior AI & Python Instructor

Jul 2025 – Nov 2025

ItsMyBot · Part-time · Remote

- Deliver Python and junior-level AI lessons, turning real-world AI (image recognition, assistants, automation) into simplified, hands-on projects that build conceptual clarity

Technical Project Manager Intern Byteaim

Apr 2025 – Jul 2025

- Led a 9-member team; accelerated delivery 35% by removing blockers, optimizing sprints, and owning stakeholder communication and risk escalation

Product Management Intern Bytewise

Jun 2024 – Sep 2024

- Defined MVP scope and backlog priorities; ran AI-based market research to guide the product roadmap
